

Map and geographic information price list starting from 1 January 2026

Espoo has rendered some of its geographic datasets openly available through the city's own interface services (WFS, WMS). An updated list of open data resources can be found at <https://kartat.espoo.fi/opendata/>.

The geographic information price list does not apply to the materials that have been rendered open data in the City of Espoo's own interface service. The open data resources can be found and handed over via the Internet. Open data resources are not delivered or worked on at the customer's request as customer service work. The use and publication rights are determined according to the open licence of the data concerned.

Materials on the topic of open data can be obtained from customer service and various service portals free of charge, however, a service fee will be charged as customer service or service portal service for their delivery.

Starting from 1 June 2021 until further notice, no fee will be charged for the use of the city's own interface in terms of open interface materials.

No open interface, materials are subject to a fee and/or permit

Point cloud 2017 and later

Cables, pipes, underground facilities for security and agreement reasons

Geotechnical investigations and other geotechnical data

Real Estate Department's regional unit data and purchase price data

Real estate data (extensive)

Sensitive nature data from the data of the Environment Department

Orthoairal photograph with a resolution of 5 cm/pixel

Pricing starting from 1. January 2026

VALUE ADDED TAX

VAT 0%; VAT 25,5% is added to the prices when the material is sold to parties external to the city organisation. However, products exempt from VAT include extracts of the detailed plan and up-to-date detailed plan map with their planning regulations and copies of official procedure maps.

Update prices

Update prices for materials subject to a material fee

- Update at least once a year, price 20 %
- Update in two years, price 40 %
- Update in three years, price 60 %
- Update in four years, price 80 %
- Update in five years, processing as a new order

The prices are calculated from the price of the valid price list.

Use of numerical material by several simultaneous users for materials subject to a material fee

- number of access rights 2-5, multiplier 2
- number of access rights 6-10, multiplier 3
- number of access rights 11-20, multiplier 4
- number of access rights over 20, multiplier 5

NUMERICAL MATERIALS' EXTRACTION FEES AS A SERVICE FOR OTHER MATERIALS

Price of the materials and extraction fees (as for a quote karttatalaus@espoo.fi):

- The size of the material does not exceed approximately one block or the extraction work does not take more than approximately one hour:
vat 0 % €113,15, vat 25,5% €142,00
- The size of the material is larger, but the extraction work does not exceed half a working day:
vat 0 % 242,23 €, vat 25,5 % 304,00 €
- The size of the material is larger, but the extraction work takes a full working day:
vat 0 % 806,37 €, vat 25,5 % 1012,00 €
- The size of the material is larger, subsequent days per the start of day:
vat 0 % 403,19 €, vat 25,5 % 506,00 €

Use of material through the interface

Direct use of geographic information materials subject to a fee and permit through the city's interface services (WMS, WFS) according to agreement.

.

Free of charge

- Utilisation of map material in educational material and research material so that it does not form an essential part of the entire publication
- Use of a map as a presentation material at presentation events (in numerical format or as map extracts), provided that it is not handed over to a third party.
- Map material of a single outlined area or material with limited data content for educational and research purposes at the cost of extraction.
